***Response to Amendment***

1. The amendment filed 10/12/2005 has been entered.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 13, 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 13 recites the limitation "the low frequency removing process" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

5. Claim 14 recites the limitation "the low frequency removing process" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

The low frequency removing process are claimed in claims 2 and 6 not claims 1 and 5.

***Allowable Subject Matter***

6. Claims 1-12, 15-20 are allowed.
7. Claims 13, 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
8. The following is a statement of reasons for the indication of allowable subject matter: The arguments presented regarding the improvement in the claimed apparatus

and method, namely that reference signal components obtained at an initial state are stored from the outputs of the photoelectric conversion devices of the line sensor, which stored reference signals are compared with the corresponding sensitivity signal components obtained after the photoelectric conversion devices of the line sensor received the reference light, whereby the output signals are corrected based on the correction for variation among the photoelectric conversion devices obtained from the comparison, are persuasive and thus render the claims allowable over the prior art cited.

### ***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
